@KillerG

And invented

Nerd Pursuit

Thanks
AGATA

It's Trivial Pursuit
for NERDS

Nerd Pursuit is a question database hosted on Github

<http://github.com/nerds/nerdpursuit>

Everybody can (SHOULD) participate in pushing new questions

Questions defined by a JSON-Schema

- 1 Question and 4 answer possibilities

@KillerC @keep thinking about how to use this open source questions

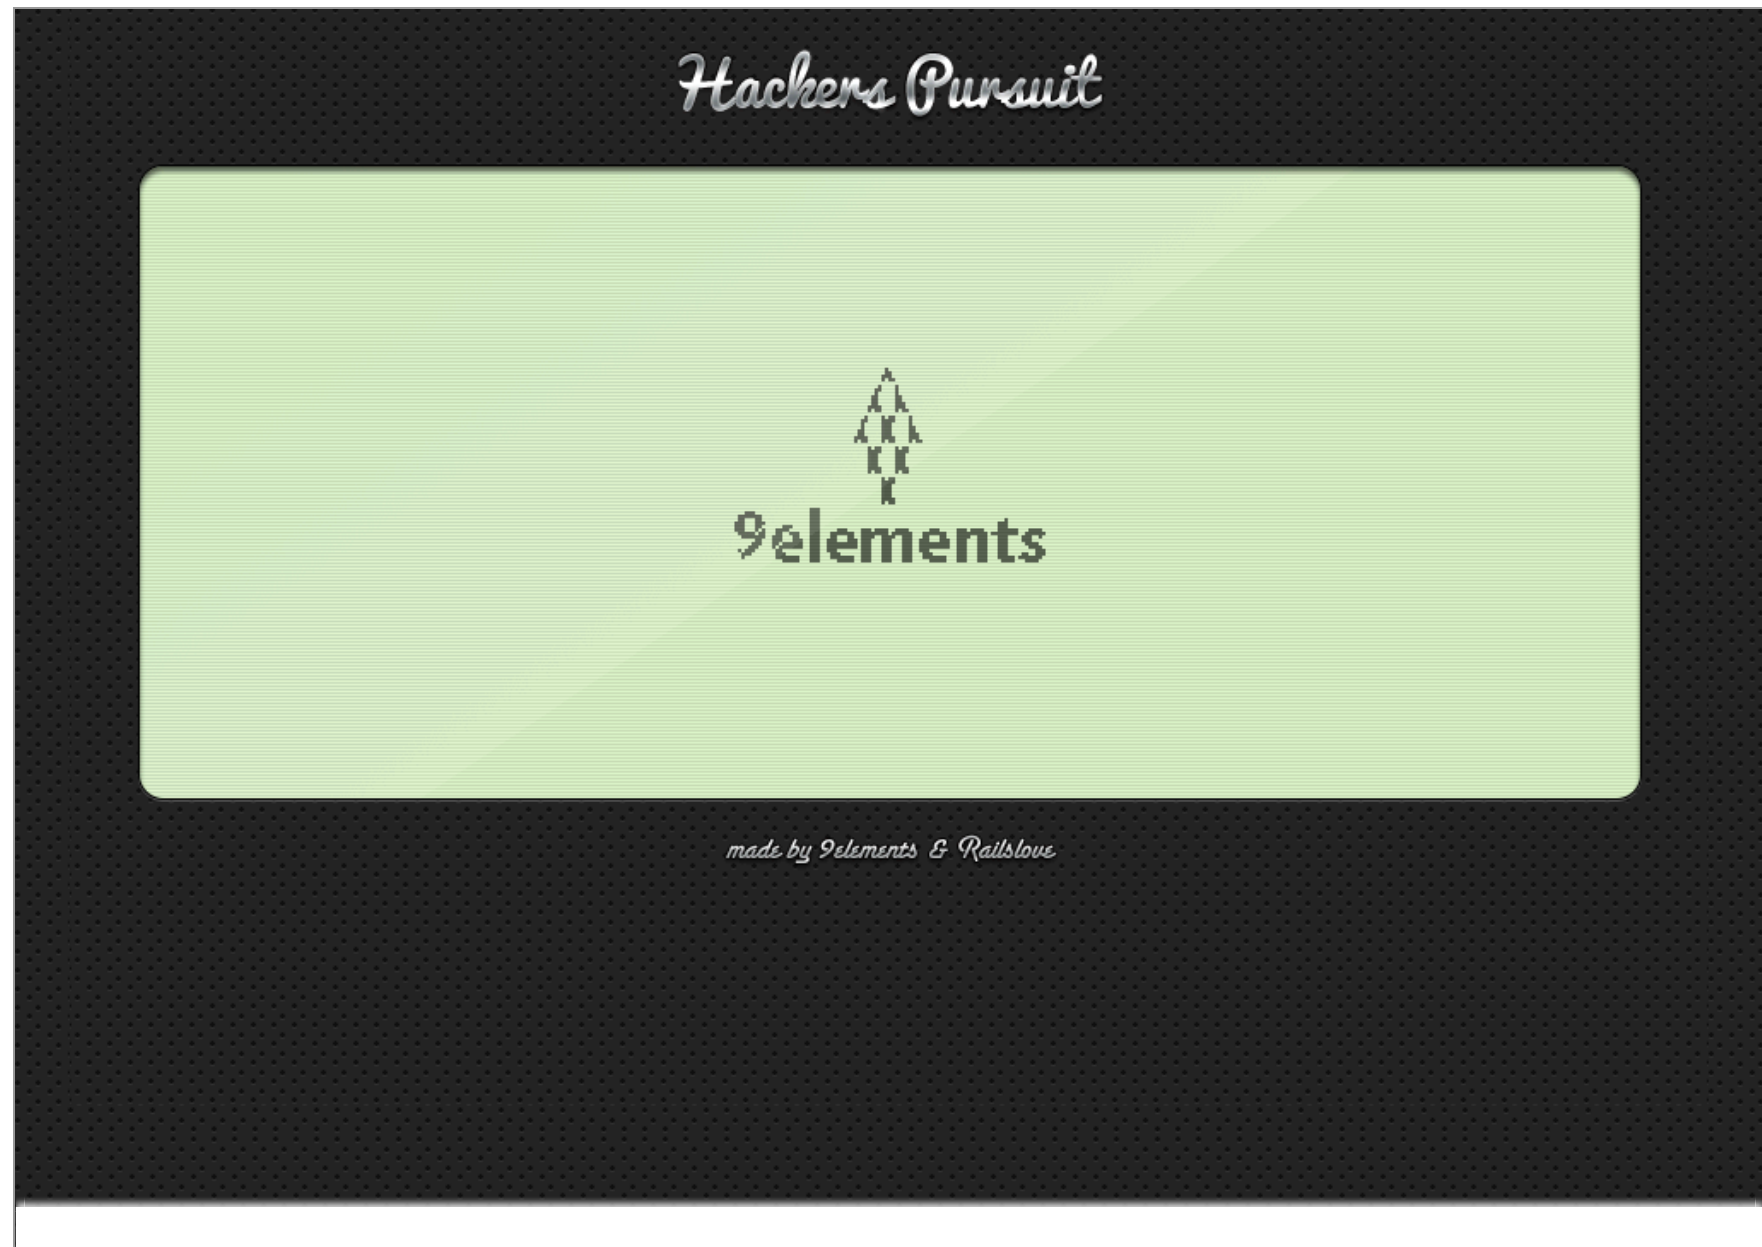

Together with the 9elements guys

We've invented Hackerspursuit

A super super

SEXY realtime game

On top of our NerdPursuit repository

Hackers Pursuit

U NO HAVE ONE MORE THING?

yes I do!

Hackers Pursuit

every question answered right: +1 point. No answer: 0 point. Wrong answer: -1 point.

+10		Like a sir!	answered all <u>20</u> questions correctly
-2		Fail!	answered <u>5</u> questions wrong in a row
+3		Rampage!	<u>three</u> questions first in a row
+3		True Coder!	answers a cat (c++, c, algorithm) with high difficulty question first
+5		Monster Pawn!	first one to answer a > cat 3 question against > 100 competitors
+2		Pawned	first one to answer a > cat 3 question against > 10 competitors
		-	
+5		Epic!	<u>ten</u> questions first in a row
		-	
-5		Epic Fail!	answered 10 questions wrong in a row

Is it only a game?

No

Hackerspursuit is also
